## THE GMC MOTORHOME ASSIST LIST

We have a GMC list of owners/supporters who are making themselves available for whatever assistance they can offer to other GMC'ers on the road while traveling. This list is for those who will offer help to others on a 24 hour basis, rain or shine. Sorry no help for those in SOB's. Just a GMC.

To sign up for the list, which is not mandatory to anyone, just follow instructions below and you will be added to the list. Required are name, city, state, country, area of coverage, phone number, and any other pertinent information you want to add such as "facilities and knowledge to do off frame restoration." We are just trying to have someone with local information to avoid rip-offs to fellow travelers who have problems on the road. Also, list size of coffee/tea pots. Changes are made as requested.

Currently, most every State and Province has someone to offer assistance to GMC'ers.

NOTE: THIS LIST IS POSTED TO THE INTERNET

Write additional comments below or on the back of this sheet to be included with your listing. You might include in your knowledge of the GMC, if you have any tools, but the most important part is the fact that if someone has a problem in your area, you can point them to local reputable firms to help them out. We don't expect you to know how to fix a problem, but to be able to help point someone in the right direction.
