Brake Test Worksheet 4

Date: 20-Dec-06

Objective: Evaluate performance of various brake materials and combinations. Time: 9:00 AM

Test procedure: Utilize air pressure operated brake pedal puller to apply precisely controlled brake pedal force. Mark road surface at instant of brake application so braking distance can be measured from full stop location.

Test conditions:

Test Location: _ Cantonment, FL

Temperature: _ 70*F Relative Humidity: ____ ~80%

Road Surface: _ New dry asphalt

Weather Conditions: __ Clear & Dry

Vehicle Identification: GMC 23' Motorhome TZE163V101080 (Ken Henderson's)

Brake configuration: Front Brakes: _ 80 mm Pads: _ EBC Yellow Diesel

Center Brakes: 60 mm Pads: _ EBC Yellow Diesel

Rear Brakes: _ None Pads: _ None

Loading Information: _____ Pads: _____
