

A black and white photograph showing the front of a GMC II conversion vehicle. The vehicle has a large, multi-slatted grille with the GMC logo in the center. To the right of the grille is a large, rectangular headlight assembly. The hood features a horizontal stripe with the text "GMC II" and "2.8" below it. The windshield is visible above the hood, and a wiper is on the right side. The overall image has a grainy, high-contrast appearance.

GMC II CONVERSION PARTS & SERVICE GUIDE

COMENTARY

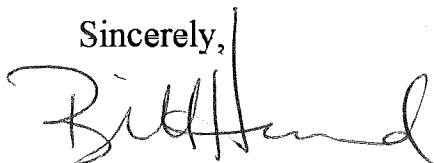

WELCOME, ALL GMC MOTORHOME OWNERS!!!! I would like to take a moment to introduce myself. My name is Bill Howard. I controlled operations, production, and sales for the GMC II.

During the production of the GMC II, I found that there were people interested in certain conversion parts, but not the entire conversion. This is where the idea for this guide was generated.

Inside this guide you will find information for the conversion of the GMC II. The guide lists many of the items found in the GMC II, along with a few new improvements. The parts come with a manufacturer's warranty. There are a few parts that have (in process), if there is found to be a great enough need, there will be a possibility that they will be able to be manufactured at a later date.

I hope you find this guide informative. If there is anything I can help you with I can be contacted at the address and phone number listed on the cover.

Sincerely,

A handwritten signature in cursive script that reads "Bill Howard". The signature is written in dark ink and is positioned below the word "Sincerely,".

Bill Howard
