## FMCA'S WINTER CONVENTION & OUR BIRTHDAY PARTY

### "The Las Vegas Fling"

The rally is scheduled for March 3, 4, 5, and 6, 1977. All the fun centers around the beautiful Las Vegas Convention Center and the nearby Las Vegas Hilton Hotel.

GMC owners attending the FMCA 2nd winter convention should first register at the Hacienda Camp Inn.

There's a pre-registration fee of \$15 per person. But children under 12 will be admitted free. And all rally-goers will receive a three-day pass to special seminars and exhibits.

Our National Directors, Mac and Gloria McDonnell, have reserved 200 parking spaces at the Hacienda Camp Inn. All GMC Motorhome Owners are invited to stay there for a special group rate of \$4.77 per night. This rate includes full hookup at the campsite and free shuttle busses to the Las Vegas Convention Center.

On Friday, March 4, 1977 from 5 p.m. to 6 p.m., GMC and FMCA will sponsor a "Welcome to Las Vegas" party. All convention-goers are invited

to attend the party, but a special invitation is extended to GMC Motorhome Owners and their families.

On Saturday, March 5, 1977 from 12 noon to 2 p.m., the GMC Motorhome Owners Club will host a gala luncheon and birthday party in Room C of the Hilton Hotel. Only GMC Motorhome Owners will be invited to attend this party. So, if you want a chance to swap favorite GMC stories and to meet GMC club members from across the country, you'll want to plan on attending.

The 15 GMC club chapters that

have been formed thus far will share in the birthday festivities. Each club will be represented by a special birthday cake, decorated with the club's insignia and a birthday candle.

We want *you* to join in the fun of cutting your cake by designating a club representative to be present at the ceremony. Please let us know as soon as possible who will represent your club!

By completing the pre-registration form found on page 3 of this issue and returning the form to FMCA, along with a check, your reservation will be confirmed, and you will be able to hook up with other GMC Motorhome Owners at the Hacienda Camp Inn.

We look forward to seeing many of you at what promises to be a glorious, fun-filled convention and birthday celebration. See you there!

*EDITOR'S NOTE: Page 4 of this issue contains a detailed schedule of events for the "Las Vegas Fling." As you read the list, you'll note that there is something to interest everyone . . . from seminars and exhibits, to dinner shows, to service discussions. And best of all, there's a big celebration planned for our "family of families," the GMC Motorhome Owners Club. I'll be watching as you cut your cake!*

### **GMC Club — Saguaro Jetset Organized December 11th at "Arizona Fiesta Grande Rally"**

Thirty-eight GMC'ers traveled to Casa Grande, Arizona, the site for organizing another GMC Motorhome Owners Club (Saguaro Jetset) on December 11th. The new chapter voted Mr. Robert Fields, President; Mr. Lester Garling, 1st Vice President; Mr. Bill Keller, 2nd Vice President; Ms. Barbara Fields, Secretary; Ms. Jolene Maneth, Treasurer; and Mr. Mac McDonnell, National Director.

Plans were made to hold the first official meeting and rally in Tombstone, Arizona, the weekend of February 11-13. The Coury GMC dealership in Arizona graciously offered to host a weenie roast for the group on Saturday night. Details of the rally and a map will be sent to all new club members.

The "Traveler" welcomes Saguaro Jetset to its growing list of GMC Motorhome Owners Clubs. Have fun in Tombstone! And keep us posted on all your Fun-tivities.

# Two Magnificent GMC Owners . . .

# And Their Flying Machine

For some people, the excitement of air racing is only a dream. But for GMC Motorhome Owners Bill and Carole Lemire of Buena Park, California, air racing is a way of life — a life made easier by their 1973 GMC Canyon Lands.

"When we first started entering air races in 1969 and up to 1973, we used cars and trucks to haul our planes from race to race," says Bill Lemire, adding "but that was a very inconvenient and uncomfortable way to travel. You get tired of sitting in one place."

Since 1973, the Lemire's have used a trailer hitched to their motorhome for transporting their racing plane. "That's the only way to travel," says Bill Lemire. "Now we have total comfort and dependability."

The Lemire's are proud of their GMC motorhome and of their sleek Formula One racing plane, aptly named the "Proud Bird."

From 1971-74, Bill Lemire put more than 12,000 man hours into the design and construction of his small, yet quick, racing machine. And he spent many more hours in selecting a name for the plane.

Bill wanted a name that suggested the plane's "unique and classy design, its distinctive personality."

*The Lemire's racing crew, assembling the Proud Bird, with motorhome and trailer in rear. The trailer, when complete, will have the same maroon, gold, and white color scheme as the motorhome and plane.*

*We're not sure what "Cannon-Ball" Baker might say about how the Lemire's use their GMC motorhome to transport the "Proud Bird." But we think that he might say, "Why not?" After all, Baker once used a GMC truck to spirit the "Spirit of St. Louis" from New York to San Francisco.*

*Background: Bill and Carole Lemire, standing in front of their GMC motorhome. Foreground: The Lemire's Formula One racing plane, named the Proud Bird. The motorhome and plane have the same color scheme.*

Proud Bird was just such a name.

The Proud Bird is piloted by Fred Wofford of Tahoe City, California. As an overseas captain for Flying Tiger Airlines, Fred often moves from the cockpit of a mammoth 747 to the small interior of the Proud Bird, which is a little like "making a transition from the ridiculous to the sublime," Bill says.

Fred makes that transition with ease. Under his direction, the Proud Bird placed third in the 1974 Reno Air Races and first in the 1976 Mojave Air Races. This year, in Reno, the Proud Bird has the fastest qualifying time — 237 miles per hour — completed one heat, and then dropped out of the race on a technicality. But the Proud Bird is a "sure bet" to score another

win in the 1977 Mojave Air Races, Bill Lemire says.

When the Lemire's travel in June to Mojave, California, located 80 miles north of Los Angeles on Highway 14, they will, of course, use their GMC motorhome for transporting the Proud Bird.

"There are many GMC owners who travel to the races as spectators, but as far as I know, we are the only owners who participate in the races and who transport racing planes via six-wheelers," Bill says. He adds, however, that at least 10 other racing enthusiasts have expressed interest in combining motorhoming and air racing in a similar way. Perhaps Bill and Carole Lemire are starting another trend in motorhoming.

Trends are a Lemire trademark. Their motorhome stripes are custom-designed to match the maroon, gold, and white psychedelic stripes on their racing plane. And their trailer, though not yet completed, will also have the same color scheme. Even the crew wears the familiar Proud Bird pattern on their uniforms, made by Carole Lemire.

The Lemire's are customizing

# Bing Crosby Golf Tourney Featured Two "GM-Tees" So To Speak!

Two GMC's, one a 26' Canyon Lands belonging to GMC Club 49'ers' President V. G. Lambert, and the other, a 29' Transmode on loan to the World Golf Hall of Fame (see caption at right), were a familiar sight to spectators at the recent Bing Crosby Golf Tournament in Monterey, California. The Tournament, held annually at the famous or infamous (depending upon your drives) Pebble Beach Golf Course, also featured top pros like Arnold Palmer teamed with equally famous amateurs like Gerald Ford.

The four-day tournament attracted over 100,000 spectators who watched professional golfer Tom Watson capture both the coveted title and the \$40,000 first prize.

The first of the "GM-Tees" at Pebble Beach was the 12th, where V. G.

Many visitors to the January 20-24 Bing Crosby Golf Tournament paid an enjoyable "18th-½ Tee" visit to the World Golf Hall of Fame's traveling museum (April-May "Traveler"). The museum on wheels is a 29' GMC Transmode currently touring the circuit of major tournaments.

Lambert's Canyon Lands Motorhome provided distinguished service as both a hospitality and emergency first aid facility. The 49'ers' Club President happily loaned his GMC Motorhome

to tournament officials upon a request he "could not refuse" from his own golf pro . . . Thanks, V. G., for a super job by a super President!

specialists. Bill Lemire used to make custom cars and racing cars. In 1956, he entered and won the NHRA Drag Races. And he has won many sweepstakes awards for his custom cars.

Now Bill has his own company, High Performance Aircraft, in Anaheim, California, which remanufactures aircraft engines and parts. He also has a chrome-plating business.

With all that work, you might think that the Lemire's are too busy to enter air races, but you'd be wrong. Air racing is indeed a way of life for Bill and Carole Lemire. They are preparing right now for the 1977 Mojave Air Races. So if you happen to be travelling on Highway 14 in June, and you

spot a GMC motorhome and trailer with maroon, gold, and white stripes, be sure to say hello to two magnificent GMC owners and their flying machine.

## LETTERS TO THE EDITOR

Dear Maryann,

We have just returned from a 2,100-mile tour in your lovely \*Glenbrook and before I am completely unpacked, I am writing to tell you about the comfort, compactness, and completeness of this marvelous "moveable mansion," as I dubbed it. I must also add how safe I always felt in it — even driving along the narrow, precipitous, 167 mile Highway 1 through Big Sur.

My son did the driving and, because of his background in aviation and automotive mechanics, he fully appreciated the engineering qualities of the \*Glenbrook.

Perhaps I can best and most simply sum it up by my son's remark at the end of our trip. He said, "I hate to take it back." I answered, "I know."

And I thought that you, too, would like to know how we felt after a week of traveling and living in your wonderful \*Glenbrook.

Very truly yours,  
Mrs. Virginia Eddy  
Portland, Oregon
