To GMC...

with love

WHEN YOU'VE ARRIVED, YOU'RE READY FOR A ZIP-DEE® AWNING. You've worked hard for your leisure time. So after your GMC Motorhome gets you there in style, your Zip-Dee will keep you in comfort—here . . . there . . . and all stops in between.

The Zip-Dee awning operates fast and easy . . . no hassle. Lunch stops with shade are a practical Zip-Dee habit. And that makes using your motorhome for short trips more enjoyable too. See for yourself how much more fun motoring can be, with a Zip-Dee awning on your side.

FOR ALL SEASONS!

U.S. Patent No. 3324869

ZIP-DEE INC., 96 Crossen Avenue, Elk Grove Village, Illinois 60007 312/437-0980

THE ZIP-DEE® AWNING MATCHES THE ELEGANCE AND QUALITY OF THE GMC IN EVERY WAY.

The Zip-Dee Awning is the only self-storing awning especially designed for the GMC Motorhome. Designed to fit snugly—firmly attached to the GMC frame for greater safety and stability. Designed to match the sleek GMC lines.

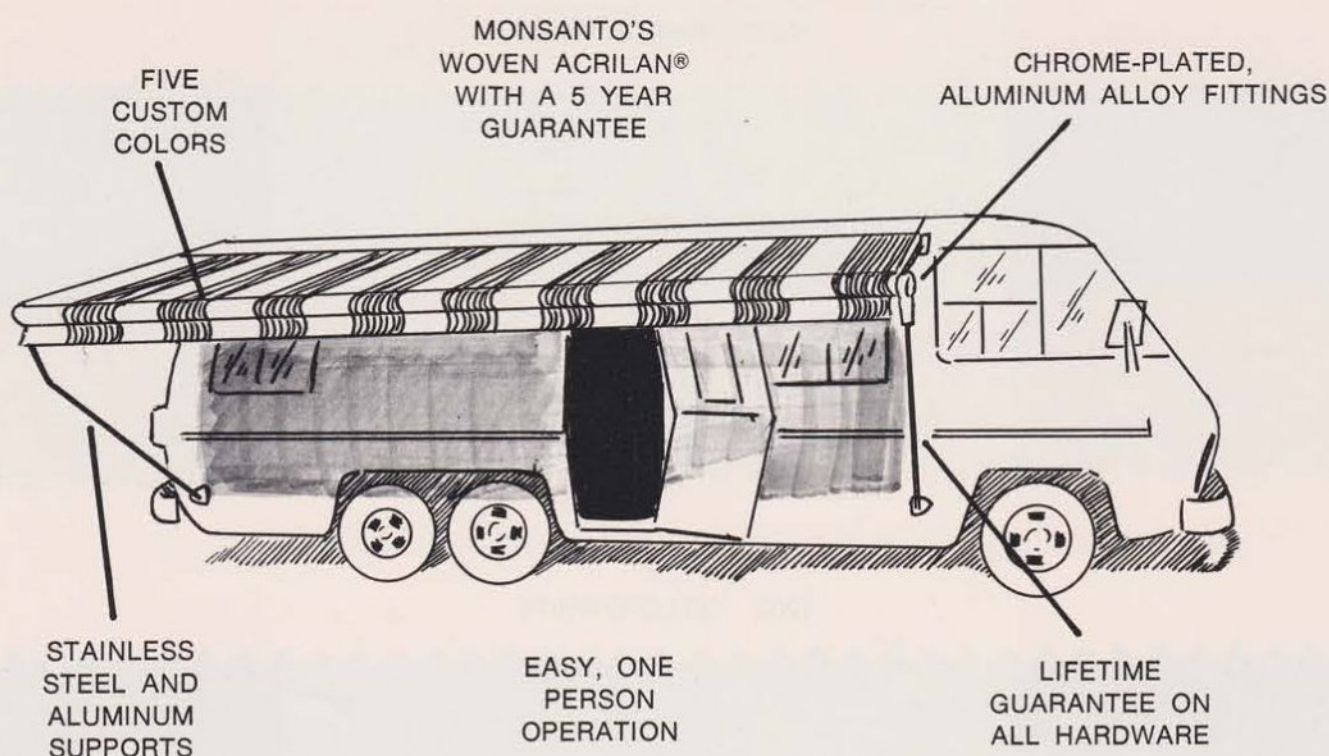

The Zip-Dee fabric and colors are chosen with the same attention to detail. After years of field-testing fabrics, only Sunbrella®-woven Acrilan® has met Zip-Dee's high standards for appearance, strength, and fade-resistance. Acrilan is a true woven fabric, not a laminate. This means the pattern is beautiful on both sides. Air circulates through it, to keep you cooler too. Soft, yet strong, Acrilan is impervious to mildew and rot so it can be rolled up wet. And it's easily cleaned by brushing or sponging. Available in five bright decorator colors—one just right for your coach. Acrilan carries Monsanto's five-year guarantee.

Now add the patented Zip-Dee cover. It's an automatic wrap-around aluminum case that protects your awning against moisture, wind, and sun while you're traveling. No clamps, straps, or snaps to come undone on the highway.

And there's more! The Zip-Dee hardware is bright, double-anodized aluminum and stainless steel. Strong and corrosion resistant. And the exclusive Chrom-Alum™ fittings are a durable, sparkling accent. We chose these strong, tough metals to eliminate rust, maintenance and worry. Even in the hardware, our quality shows through. And we guarantee all mechanisms and hardware for as long as you own your Zip-Dee.

But, best of all, is Zip-Dee's fast one-person operation. A unique simple-pivot principle produces less friction, better balance for easy opening. A specially treated heavy duty spring provides the power assist to close the awning just as quickly and easily. As a result, you get the only true one person operation.

And if all this doesn't convince you, remember you'll save energy (and money) while you keep cool. Both of your large windows are protected from the sun so, with Zip-Dee's natural cooling action, you may never need an air conditioner. And while you're cooling the inside of your coach, you're adding a comfortable outdoor patio area too. Now you can enjoy the outdoors even without the shade of a tall oak tree! And isn't that the kind of freedom motorhome travel is all about?

WHEN YOU'VE ARRIVED, YOU'RE READY FOR A ZIP-DEE® AWNING. You've worked hard for your leisure time. So after your GMC Motorhome gets you there in style, your Zip-Dee will keep you in comfort—here . . . there . . . and all stops in between.

The Zip-Dee awning operates fast and easy . . . no hassle. Lunch stops with shade are a practical Zip-Dee habit. And that makes using your motorhome for short trips more enjoyable too. See for yourself how much more fun motoring can be, with a Zip-Dee awning on *your* side.
